## ABOUT ME

Growth-oriented Software Developer with strong foundations in Python, JavaScript, React.js, MySQL, Data Structures, and Object-Oriented Programming, and hands-on experience building full-stack applications.

Actively seeking opportunities to learn, collaborate, solve complex problems, and contribute scalable, high-quality software solutions in a professional engineering environment.

## EDUCATION

**Swaminarayan University**

2024-2026  Kalol

**Master of Computer Applications**

8.5 CGPA

**Leo College**

2021 - 2024  Banswara

**Bachelor of Computer Applications** 74.8%

## TECHNICAL SKILLS

**Languages:** Python, JavaScript (ES6+), C++, Java, PHP

**Frontend:** HTML5, CSS3, React.js, Tailwind CSS

**Backend:** PHP, Node.js (Basics), REST API Integration, Django/Flask

**Database:** MySQL, SQL Queries, Database Design

**Core CS:** Data Structures, Algorithms, OOP, DBMS, OS, SDLC

**Version Control:** Git, GitHub (comfortable with version control workflows; actively learning best practices)

## EXPERIENCE

**Bluestock Fintech**  Remote

February 2025 - March 2025

### Software Development Engineer Intern

- Designed and developed responsive, production-ready UI components using React.js and Tailwind CSS.
- Integrated REST APIs with optimized state management, reducing dashboard load time by 30%.
- Collaborated with backend and API teams to resolve blockers and improve data flow.
- Participated in Agile sprints, Git branching strategies, and peer code reviews.

## PROJECTS

### StitchFlow Suite – Full ERP System

- Tech: React.js, Tailwind CSS
- Built a production management ERP with Admin & Supervisor roles, worker tracking, and production dashboards.
- Engineered modular UI components: sidebars, forms, menus, popups.
- Ensured fast rendering and mobile-responsive interface.
- Designed modular components following OOP/OOD principles to support scalable system architecture.

### Doctor Appointment Portal

- Tech: HTML, CSS, JavaScript, PHP, MySQL
- Complete appointment booking system with doctor panel, patient registration, and admin management.
- Implemented authentication, scheduling logic, and form validations.

### SafeChat360 – Secure Messaging App (In Progress)

- Tech: React.js, Node.js/Python
- Real-time encrypted chat platform focused on privacy and smooth user experience.
- Designing E2E encryption layer + cloud-based message storage.

## CERTIFICATIONS

- Web Scraping with Python & Regex – SkillEcted (2025)
- HTML & CSS Bootcamp – SkillEcted (2024)
- JavaScript Bootcamp – CodeWithRandom (2024)
- SDE Internship Certificate – Bluestock Fintech (2025)

## TECH STACK EXPOSURE

- .NET, Next.js, Nest.JS (Learning)
- AWS (EC2, S3, Lambda – Learning)
- MS SQL Server (Familiar)
- Kubernetes & Docker (Basic Concepts – Learning)

## ACHIEVEMENTS

- Soft Skills: Problem-solving, collaboration, communication, adaptability, learning agility, ownership mindset.
- Built 15+ production-quality UI screens in React.js.
- Completed 3 full end-to-end applications independently.
